

Logic Grid Puzzles.

Supplies: a sheet of paper and a pencil to draw the grid.

Backstory: Solve this logic puzzle to find out the name, the age and the favorite superhero of each kid.

Remember, as with all grid-based logic puzzles, no option in any category will ever be used more than once.

Clues:

1. Bryan likes Spiderman.
2. Tony doesn't like Superman.
3. The youngest kid likes Spiderman.
4. The kid who likes Superman is 8.

Here is how you use the grid: put a 1 where you know the favorite superhero of a kid and a 0 where you know that someone is definitely NOT the favorite superhero of a kid. From the first clue, you can put a 1 in the Bryan row and Spiderman column. You also know that Spiderman is NOT the favorite superhero of Sean or Tony.

		Superheroes			Ages		
		Batman	Spiderman	Superman	6 years	8 years	10 years
Names	Bryan						
	Sean						
	Tony						
Ages	6 years						
	8 years						
	10 years						

Another puzzle.

Backstory: Horse, Cow, Dog, and Cat went to the theater and sat in a row of four seats (numbered 1 through 4).

Clues:

1. Cow and Cat took the aisle seats.
2. Dog's seat number and Cow's seat number were bigger than Horse's seat number.
