

Coding Wheel.

Print out or copy the wheel. Cut out the big and small circle and place a round fastener in the middle. The outside letter is the decoded (actual letter) and the inside letter is the coded letter.

There is more than one way of coding with the wheel. How many do you think there are in total?

Your name. Can you code your name using the code of your choice?

Match: Match the word with the picture

JHY

IHY

ZAHY
